JOSEPH NOURSE, Register.

(B.)

Copy.

Treasury Department, May 21th, 1799.

Sir,

I herewith transmit a copy of an act of Congress, passed on the second of March last, entitled "An act in addition to an act for the relief of sick and disabled seamen."

It was hoped that an arrangement could have been formed before this time for the establishment of permanent hospitals. It appears, however, that this subject has been placed by the act of the last session "to regulate the medical establishment," under the immediate superintendence of the physician-general; the object of this communication is therefore confined to a provision for the *temporary relief* and support of sick and disabled seamen in public and private service.

For the present, and until experience shall have shown the expediency of a different arrangement, the moneys collected in the States of Pennsylvania and Delaware, and in the western districts of New-Jersey, will be expended under your direction, at or near Philadelphia; and accordingly the sums collected at the out-ports, will, from time to time, be placed in your hands in pursuance of special directions, of which you will be advised.

The persons entitled to relief from the fund, are officers, seamen, and marines of the navy of the United States, and masters, mariners, and seamen employed in private or merchant vessels.

I think proper to mention that there may be

some danger of a diversion of the fund for the maintenance of persons who ought to be relieved as paupers under municipal regulations. As abuses of this kind, if practised to any considerable extent, will defeat the humane intentions of Congress, in the establishment of permanent hospitals, for the support of disabled seamen, this ought to be carefully prevented.

It is, however, the object of the law, that the expenditure of the fund for temporary relief should be made at the hospitals, or other proper institutions now established in the ports of the United States. You will, of course, endeavour to fix, by precise agreements, the conditions upon which the sick and disabled seamen should be received and supplied with whatever their necessities may require, and will transmit the copies of the contracts which may be formed to this office. In cases where agreements cannot be made, you will pursue established usages respecting similar expenditures, observing all possible economy.

It is not expected that you should personally superintend the details of expenditure; an agreement, therefore, with some individual or corporation that the fund shall be properly applied, appears to be indispensable. The accounts must be rendered to you at least quarterly, supported by such vouchers as are usual, and as circumstances will admit of being taken; which, after examination, will be paid out of the moneys in your hands.

You will be pleased to keep all your accounts of receipts and expenditures for this fund distinct from your other accounts. The quarterly abstracts of the fund are to be rendered agreeably to the form prescribed by the letter of the comptroller of the Treasury, dated the 19th of September, 1798: the quarterly accounts of expenditure are

to be rendered agreeably to the subjoined form, and the whole regularly introduced into an account current, which is to be transmitted every quarter.

I am, very respectfully, Sir,
Your obedient servant.

George Lattimer, esq.
Collector of Philadelphia.
